surge of

aerobic exerciser

The secret is out! You really can enjoy the benefits of an aerobic workout by simply lying down and relaxing with your feet up.....

- **Simply lie down and relax. The Surge of Chi exerciser will do the rest.**
- **Let the waves of Chi energy flow through your body, gently easing away all tension and stress.**
- **Rediscover the suppleness and sense of well-being you enjoyed when you were younger.**

The idea behind the Surge of Chi Exerciser originates in Japan, where they have been popular for many years as a convenient form of exercise for people coping with busy lifestyles and high stress levels. The enjoyable experience they give has become affectionately known by the Japanese as '*goldfish exercise*' - from the elegant wave-like motion they stimulate.

The exerciser can be used effortlessly by young or old at any time of day or night. The user simply lies down, placing their ankles on a cradle, which swings from side to side. A rhythmic wave-like motion is created as the body naturally responds to the sideways movement of your feet and legs as the cradle oscillates.

The Surge of Chi Exerciser offers an ingenious way of enjoying a relaxing yet invigorating exercise session in the comfort of home. The effects of one session lasting just five to ten minutes combine many benefits for maintaining your body's health and improving your daily sense of well-being, including:

- The natural effects of exercise - deeper breathing and better circulation
- Relief of tension and stress – helps many to enjoy a more relaxing sleep
- Boosts your energy levels – feel the chi energy surge through your body
- Helps to stimulate your body's natural health maintenance capacity

Priced at just £187.50 + delivery (Mark 1 version) or £229 + delivery (Mark 2), the Surge of Chi Exerciser is an affordable, relaxing and wonderfully rewarding way to invest in maintaining your health and helping your body to stay young.
